

## PLEASE NOTE

*Gold Rush!* requires a CONFIG.SYS with files set to 15 or greater.

To find out if you already have a CONFIG.SYS, at the DOS prompt type CD\ then press ENTER. Next, type DIR CONFIG.SYS and press ENTER. If you get a "File Not Found" message you must create a CONFIG.SYS. If you already have this file, you must edit it. Follow these steps to create a CONFIG.SYS:

```
COPY CON CONFIG.SYS      (press ENTER)
FILES=15                  (press ENTER)
```

```
Press the <F6> key      (press ENTER)
```

You should see the message "1 Files(s) copied". You will have to reboot your computer for the CONFIG.SYS to take effect.

If you already have a CONFIG.SYS, you must edit the file to include a Files=15 (or greater) statement. Use your favorite word processor or the EDLIN program which comes with MS-DOS. Refer to your DOS manual for EDLIN commands.
