

# Special Instructions for IBM/Compatibles

- To run Might and Magic™ DOS must first be loaded.
- To set up the Graphics for your IBM:  
Insert Disk 1 in Drive A and type:  
**Graphset** ◀Enter▶
- NOTE: You must have one of the following types of Compatible Graphic Adapters to play Might and Magic™:

CGA (Color/Graphics Adapter)  
Hercules Graphics Adapter  
Tandy 1000 (Requires 384k Minimum)  
EGA (Enhanced Graphics Adapter-Requires 512k Minimum)

Choose the Graphics Adapter you have currently in your machine by pressing the corresponding number. When in doubt of which type of Graphics Adapter you have choose CGA.

Remove Disk 1 and Put a Write Protect Tab over the Notch.

- NOTE: Once you have run Graphset you do not need to run it again.

## DIRECTIONS FOR USE ON A FLOPPY DRIVE.

Copy Disk 2 using Standard DOS Commands

One 5¼ drive type:
