Win 95 Multi-Player Game Setup

Under Windows '95, *Trophy Bass 2 Deluxe* supports three “remote” multiplayer game options. To use any of these options, each player must have the *Trophy Bass 2 Deluxe* CD installed and in the CD drive, as well as the appropriate hardware:

Modem Play: Both players need to have a 14.4 or better modem configured for Windows 95 and connected to an open phone line.

Network Play: All players need to be connected to the same local area network (LAN), and on the same fileserver and subnet.

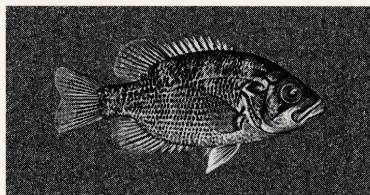

Internet Play: Each player needs an Internet browser that runs under Windows 95, and Internet access via modem or network.

Trophy Bass 2 Deluxe Overview

This section briefly introduces the game's main features. See the on-line Preview and Help in the game for complete information.

Trophy Bass 2 Deluxe is a highly accurate bass fishing simulation based on real lakes, real lake conditions, and real bass behavior. To succeed, you will need to consider the weather, season, water conditions, and many other factors that affect how real bass act. What you learn playing *Trophy Bass 2 Deluxe*, seeing the Pro video tips, and reading the "How To" multimedia bass fishing reference will be equally useful on real fishing trips...and vice versa.

If you have already mastered the basic "How-To's" of bass fishing, you'll find plenty of new challenge in playing at the Medium and Hard skill levels, or Tournament fishing against the computer. The ultimate challenge is Tournament fishing against other expert anglers over a modem, a local area network, or on the Internet.

Getting Started

If you're new to *Trophy Bass*, you can select Preview on the Main Menu for a guided tour of the game.

To start learning how to fish right away, select Single Player, then Fishing Trip, and then "Quick Fish." This gets you out on the lake with everything set up nice and easy. See the Help menu for quick info on How To Cast, Fighting Fish, and other topics.

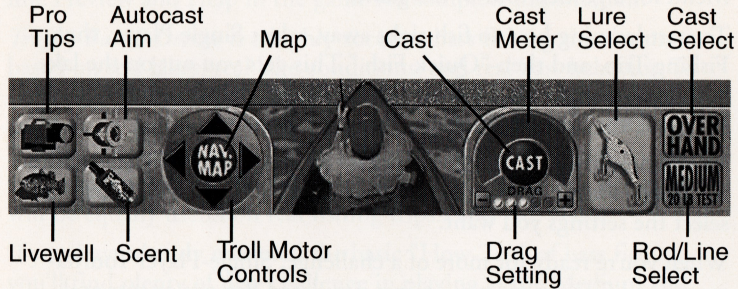

To explore different skill levels, lakes, and fishing conditions, choose the Single Player Fishing Trip option "Start a New Fishing Trip" and select the settings you want.

When you're ready for more of a challenge, Single-Player Tournaments and Careers pit you against simulated Pro opponents and tougher conditions. You'll have to have a pretty good grasp of the game's fishing controls, bass behavior, and lure selection to be competitive here. Try the Pro Tips or How To for hints.

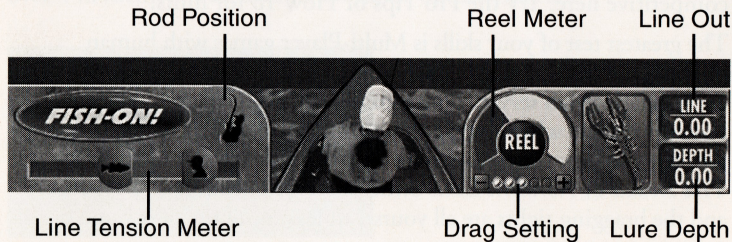

The greatest test of your skills is Multi-Player games with human opponents over a modem, network, or the World Opponent Network (won.net) Internet server. Tournaments are fast and frenzied bass-busting contests where every second counts. With the Deluxe upgrade, you can also play tournaments for species other than bass with other *TB2 Deluxe* or *Northern Lakes* owners. Weigh in with lots of big fish, and the bragging rights are all yours...at least until the next game starts.
