Installing and Starting the Game

Windows 95 CD Installation

1. Start Windows 95.
2. Insert the *Trophy Bass* CD into the CD-ROM drive.
3. When the Trophy Bass setup screen appears, follow the on-screen instructions.

Starting the Game

1. Start Windows 95.
2. Insert the *Trophy Bass* CD into the CD-ROM drive.
3. Select the Start Game Option when it appears.

Windows 3.1 CD Installation

1. Start Windows 3.1.
2. Insert the *Trophy Bass* CD into the CD-ROM drive.
3. From the Program Manager FILE menu, select RUN.
4. In the RUN window, type **d:\setup** and press [Enter]
(assuming **d** is your CD-ROM drive name.)
5. Follow the on-screen instructions.

Starting the Game

1. Start Windows 3.1.
2. Insert the *Trophy Bass* CD into the CD-ROM drive.
3. Open the Sierra Program Group.
4. Double-click on the *Trophy Bass* icon to start the game.

Additional Windows Setup Help

During installation, TEST SYSTEM checks to make sure your computer can run the game correctly.

If you have trouble installing or starting *Trophy Bass* in Windows, refer to the following Troubleshooting section.

You can find additional game information by opening the *Trophy Bass* README file in the Sierra Program Group or on the CD.

After game installation, the "Setup & Uninstall" program in the Sierra Program Group lets you re-install the game, re-test your computer, uninstall the game, register, or view detailed Support and Setup Help information. To Start it, just double-click on the Setup & Uninstall icon.

Windows Troubleshooting

Problem: I have the required 8 MB of RAM. But when I try to start *Trophy Bass* in Windows 3.1 or 95, I keep getting an “Out of Memory” error message.

Possible Solutions: Try closing all other programs or screen savers before launching *Trophy Bass*. If that doesn't do it, next try making a Boot Disk. Simply double-click on the Boot Disk Maker in the Sierra Program Group, and then follow the on-screen instructions. (NOTE - you will need a blank disk in your **A:** drive to create a boot disk.) Then restart your computer with the Boot Disk in the **A:** drive.

If you still do not have enough memory, your boot disk may require further modifications. Try creating your own boot disk manually. For instructions, start the Sierra “Setup and Uninstall” program. Click SUPPORT, then CONTENTS, then scroll down to the “Boot Disk Instructions” section.

Problem: I have a SCSI drive on my PC and *Trophy Bass* does not work properly.

Possible Solution: Do not use SMARTDRV.SYS for *Trophy Bass* if you have a SCSI drive. You may also need to load your ASPI drivers. For more information on drivers, please consult your SCSI controller and hardware documentation.

Problem: *Trophy Bass* does not run on a compressed drive.

Possible Solution: *Trophy Bass* may require up to twice as much hard disk space as the compression software says. Compression software expects to compress files by a ratio of 2 to 1 or more. However, many *Trophy Bass* files will not compress much.

Problem: The game's sound/music is missing or distorted.

Possible Solution: You may be using a non-standard MIDI setup. See the README file for details on correcting your MIDI setup.

Error Messages

General Protection Fault: Try updating both your Windows Driver and your Windows Sound Card drivers. Contact your video card and sound card manufacturer for more information.

Not enough Memory to Run This Application: Try closing all other programs or screen savers before launching *Trophy Bass*. If that doesn't do it, try making a Boot Disk.

Other Problems

If you have already looked at the *Trophy Bass* README file, check out the on-line Setup Help. To open this, double-click on the "Setup & Uninstall" program in the Sierra Program Group or folder. Click SUPPORT, and then CONTENTS to find help on your specific system component or problem.

Customer Service
